Bronc Take ICAC Hoop Crown

Panico Leads BJC To Victories Over Rick's and Weber

By Ron Hayes

Coach George Blankley's crews, off for weekend contests in Reno, Nevada, and Ogden, Utah, brought home a pair of basketball victories and a key mountain College Athletic Conference crown. Pacing the capital city squad was center, Nick Panico who netted 31 points against Rick's college last Friday night and hit for 39 against Weber the following evening.

"The final victory against Weber was dedicated to the battle for the league title that wasn't to be decided until the final game," the College of Southern Utah, A.J. Jones, who led the league the past four weeks under Blankley, said to win this crown, grabbed the number two spot in ICAC competition by finishing with an 11-3 record.

Rick's BJC staged a last minute victory rally and pulled away with Panico, Dale James and Paul Loughnough hitting the double figures in the score column last Friday night as the Broncos beat the time team defending ICAC champion, Rick's, by a 72-70 score.

With CSU having won their 13th game, and only one outcome behind BJC and a strong favorite to beat, changing the Olson Staduim had to whip Weber on Saturday for the league title and they did that as Panico sank 20 points and Dave Cook, 20, was second in scoring.

The win was BJC's 12th straight, and gave the Broncos a 12-2 league slate and a 26-4 over-all season mark.

French, Spanish Clubs Present Language Program

The French and Spanish clubs have presented a foreign language program March 22 at 8:00 P.M. It is to be held in each club and entertainment by the club members.

This is an annual money-making project which originally began in 1935. The affair is open to the public and was particularly pleased that the plans were chosen so that they would hold interest for all people, regardless of whether or not they had taken the language.

The cast for the French play has not been announced.
Student of the Week

Teacher of the Week

The personality selected for this week's "Teacher of the Week" is Mrs. Frances N. Smith, who is a well-known member of the faculty and has taught at Little Mountain campus for many years. She has always been a source of inspiration and encouragement to her students. Mrs. Smith is known for her dedication to education and her commitment to helping students achieve their full potential.

In Our Opinion...

In the process of digging, some students at Little Mountain campus organizations are finding reports on the activities of a newspaper that has, for the first time, been officially recognized by most of the campus organizations. Considering the time and effort that the faculty and students have put into the organization, it is certainly impressive to see how much they have accomplished. Many of the organizations have little difficulty taking control of the publicity for the campus. The fact that these groups have become strong organizations is not surprising.

It is evident that the faculty and students have worked hard to create something that is beneficial to the campus. In order to make sure that the publicity for the campus is handled in an appropriate manner, the faculty and students are working together to ensure that the publicity is handled in a positive and effective way.

The publicity for the campus is important and must be handled with care. This is why the faculty and students have worked hard to create something that is beneficial to the campus. The faculty and students have worked hard to create something that is beneficial to the campus. The faculty and students have worked hard to create something that is beneficial to the campus. No other annuals will be available for those students who have not placed early orders, however, the price will be higher.
