THE LAST LAP...

How am I doing?

We're on the last lap. The end of the '59-'60 school year is almost upon us. It is up to the individual himself to decide whether or not he will reach the finish line.

With the completion of mid-term examinations, students are coming into the last mile of a school year and will soon be only a matter of just a few weeks. If you are one of the hard-hitters, you'll definitely feel the strain, but think of the thrill of being one of the winners.

Winning is not an easy task, whether it be athletics, scholastic, or just about anything else. It requires hard work and dedication, both on and off the campus.

The final weeks are a great time for a few moments of relaxation. For the athletes, it's time to get ready for the last few meets and games of the year. For the rest of us, it's time to get ready for exams and the end of the school year.

More Truth than Poetry

One of the hardest things to teach our kids is that truth is more important than appearances.

When a woman asks us to do something more expensive than expected, we often say, "It's cheaper." But there is something in the fact that even our dreams have not come true, neither have our nightmares.
