Notices to Sophomores

Remind your roommate: 1. The Registration Office is now open. The Application for Admission and the fee must be received at the Registration Office by May 15. 2. All sophomores are asked to fill out the forms for the summer session during the first week of classes. 3. Congratulations to the new seniors! 4. The final examination period will begin May 15. 5. The senior class officers are: President, Mary Johnson; Vice President, Doris Carter; Secretary, Jane Smith; Treasurer, John Doe.

Concert Series

Features Teacher

Mr. Charles Meyer from the University of Chicago and the London quartet of the University of California will be featured on Monday, May 22, at 8 p.m. in the A. M. building. Mr. Meyer will play "Concerto K. 46" by Schumann, "Tinklebelle in G Minor" and "Tinklebelle in A Flat" by Chopin.

Public admission will be $1.00.

Mr. Parkinson is Assembly Speaker

Professor C. Northrop Parkinson was guest speaker at a BJC Lyceum assembly held Thursday, May 12, in the senior auditorium. Professor Parkinson is a noted historian, author, and educator. He is presently making a lecture tour through the United States, and has held a position with the University of Malaya for the past 10 years. Parkinson chose to speak on "Expenditures Revisited: The Greatness in the Student." With tongue-in-cheek humor, he spoke on the need for an all-important American family on a budget and the relationship of government. He believes that the students of the University of Malaya should be taught to handle the number of official forms that are handed out to them.

Note to Students from the Registrar

Students who wish to have their grades sent at the end of the semester should have them sent to the registrar's office before May 15, 1960. Students who wish to receive their second semester grades, please leave a self-addressed stamped envelope at the registrar's office. He will give the address where you will be after Jan. 5, 1960.

Weekly Devotional

Because of the many activities and the nearness of the final exams, the regular weekly devotional will be held this week.

Clubs Announce Officers

For Next Fall Semester

By Barbara Birkett

Among the many activities which take place during spring are the election of officers of the various campus clubs and organizations. The following is the list of the officers for the spring for the following two semesters. The fall officers will take over the job of student body president which Barry Luhm handled so successfully this year. His assistant will be David Brown, vice president; Daryl Ann Fredrick, corresponding secretary; and Charles T. Smith, treasurer. The spring officers will take over the duties of the spring officers. The spring officers will be announced next semester.

BJC Dorms Hold Annual Spring Tea

The annual Spring Tea and open house of Morrison and Dunbar halls was held Sunday afternoon, May 15. A number of the committees for the tea were: Claudette Mendiola, Elaine C. White, and Janice M. S. White. Table, flowers, and decorations were made by the students of the BJC dormitories.

Mrs. Johnson, president of Morrison hall, and all parents of friends were invited to attend the tea.

Elected with Gold 2 president.

A Capella Choir

Sings Bach Mass

"Mass in B Minor" will be presented by the Juneau College Junior Choir in the BJC auditorium at 8:15 p.m. Admission will be free.

Mr. C. Griffin Bratt stated, "This is the biggest musical work ever undertaken by the BJC choir, and "Mass in B Minor" is one of the most popular and classic compositions in music literature," Mr. Bratt said. There will be a special committee to be formed in charge of the production of the "Mass in B Minor." Among the soloists to be featured are: Anne C. Van, Karen S. Johnson, Mary L. Belch, Clarice M. Campagna, Barbara R. Ford, and others. The chief arranger will be the BJC Chorale, a boys' chorus, under the direction of the BJC Chorale.

This concludes the BJC Round Up for this week.
GET TO WORK!

Dear This time of year it's not to be the moment you've come to call all BSC students to be in order.

For the sophomores-code the big subject is: "How do you live beyond college so that your course for next year?" Now is the time when you should think seriously about a future career. If you are thinking of any other question, you may be able to plan courses which will help you to make back your good year, and you will certainly have an added interest in your next year's work. If you have a different interest, think about a job or a profession to attend after VSC.

This is the end of a school year. It is the time every student to think about the summer. What will you do? Talk to the same old friend or be a tourist of fun! What should you plan to do this summer? If you plan to do a job, carefully plan the type of work and have a summer job. It is possible, you may even make a fortune. Don't look at the attitude of money and if the job does not suit anything, you need to work the rest of the summer.

If you plan to be a tourist, you should plan the place you will go. What kind of tourism is the best to you? What would you like to see? The more you think about the summer, the more you can enjoy it.

Many people look forward to the summer. What will you do?

LITTLE MAN ON CAMPUS

by Dick Bibler

"If you're going to be a success in life, you've got to start young."

-John Wooden

Dr. Harry K. Fitchman, in his office lab

Dr. Harry K. Fitchman, Science Instructor, is Featured Teacher of the Week.

In his office, Dr. Fitchman works in a long line of Zoology, his grandfather having been on hand for Willamette's earliest years.

He attended Willamette after graduating from High School in 1941 and in 1942 joined the Army Air Corps. During the war, he was stationed in Italy as a B-17 pilot.

At the end of the war, he returned to Willamette and received his Ph.D. in Zoology. He joined the University of California and became well known for his B.A. MA. MD.

He says that his main concern was geometry and he now loves to put it in his teaching. He says that the California Institute of Technology and the University of California.

At the library, he reads...

CAMPUS QUERY

By Barbara Bibler

If you are one of those graduating seniors what kind of class project should it be spend?

Emily Backman

Tom Morgan

Brady Wood

Mark Waddell

Richard Mathieson

John Coyle

Kathleen Smith

Jackie Bilder is a Sophomore in the Business Administration.

R. H. Quant is a Junior in Business Administration.

Catherine Turner is in Business Administration.

Emily Theringer is a Freshman in Business Administration.

Edward G. Mathews is a Sophomore in Business Administration.

Who will be that for the next semester? The Student. airplanes and boats are visible.

Marvin Franklin is a Freshman in Business Administration.

Husband Along Side to wife

There are some year left out of school and a year now or will they throw same away next year work?

THE WEEKEND: I MUST WESTON ON PROMOTION!
WHEN IS A BUM A BUM?

In a town a bum because he is tired, or because he is far? The town about shows that a bums can take advantage of clear, fresh air, good lighting, and proper amounts of sleep. These factors and many more are important in combating fatigue. Of course, both men can only do one at a time, the biggest contributor to fatigue is work. So, while the rest of us fight to combat the bums, the lack of fight to combat fatigue.

Air Lines—Query for Stewardsesses

Representatives of the United Air Lines were in the Town last week. They are to acquaint students who might be interested in the stewardesses' careers with the requirements for the same.

Recitals Planned
By BJC Students

Final recital of the month will be given in the auditorium on May 15th. The program will consist of vocal and instrumental music. The recital is free and open to the public.

ASSEMBLY SPEAKER

Christian Leininger

Chairman, Board of Trustees of the Town won't let us do it. Where is the man who keeps us up to date? The man who keeps us well informed about the latest developments in the field of science.

Color, Food, Air Often Determine Amounts of Personal Fatigue

"Heat" or "Russed" are just two of the common expressions used to describe a problem we all have at some time or another—sometimes more frequently than is necessary. Just how many people are fully aware of what causes fatigue and what might be done to avoid it?

But do you know, for example, that the body can be made to forget? It is a fact. In an experiment described in a recent issue of the American Journal of Psychology, it was found that a great deal of data was forgotten over a 15-minute period, due to the ability of the brain to handle all applications to a certain extent.

But the experiment of those conditions, those circumstances, and time periods.

Every thought may also take the wrong path and muddle conservation. In one of those rare, rare research tasks was also one of the greatest problems. An old man.

Recital, May 15th, 7:00 p.m.
