

WAS PHILIP IS FOND OF PHOSPHORUS

One day he added $KClO_3$ — and then he no longer played with P! "Too bad," his friends all said, "but Philip should have used his head."

So true of many folks — they know a lot, but it's not enough. The dumb ones make a gorgeous bust, but those who are hep get people who know all the angles to give them the right answers.

It's like that in getting out a school annual. The staff can dream up the cleverest copy and snap the snappiest pictures — but unless the

book is printed so you can read your name and see who's who in the pictures, the whole thing ends up like Philip.

That's where your annual staff showed how keen they are. They lined up with the best printer and called us in for engravings to help produce the finest possible book. They knew that we have specialized in school annual engraving for 40 years — and would have the right answers ready for the editors, artists, photographers, faculty and printer. Give the staff a hand for using their heads!

DISABLED AMERICAN VETERANS

The emblem of the Disabled American Veterans is a replica of the Accolade of Chivalry, portrayed on wound certificates issued by President Woodrow Wilson. The button indicates that the wearer has sacrificed a part of his blood, a part of his body, or a part of his well-being in the nation's most hazardous employment—serving in its armed forces during time of war.

Years a National Bank!

The Idaho First National Bank operates under the second oldest National Bank Charter west of the Rockies. It was granted in the spring of 1867 — 80 years ago — when Boise was only four years old and when gold was Idaho's principal product. Since that time, Idaho First National has seen our state grow and prosper . . . and has aided in the development, extending its friendly banking facilities into 15 other Idaho communities to serve all the needs of businesses and individuals.
