## **finis, finit, finissans, finissez, finissent**

In retrospect the 1968-69 school year has been one of great change, both in school status in the community, actual enrollment figures, and general campus attitude.

The aim of this issue of the Les Bois has been directed towards the expression of this growth and the continued academic excellence maintained throughout the school.

We have tried to capture via the camera the spirit of the campus, the individual and the whole. However, most of all we have tried to design this book to please the average BSC student for whom it was created.

The Les Bois staff would like to thank the Taylor Publishing Co. and its Boise representative Jon Riggs for their much appreciated aid and cooperation. We would also like to express a great deal of gratitude to Franklin Carr, our photographer, without whom the completion of this book wouldn't have been possible.
