Keep America Free!

The crisis of war is past. May all present students of Boise Junior College be spared from combat duty in the cleanup campaigns.

The crisis of peace is yet to come and in the campaign to establish universal cooperation for the elimination of war, victory can only be attained by the persistent efforts of all honorable citizens.

The service of college men and women, whose outlook upon the past, present and future has been broadened by education, will be needed as never before in the world's history.

There are two great objectives now, which must be emphasized in the coming years:

1. *Keep American free from foreign domination.*
2. *Keep America a land of opportunity, where the individual citizen may be rewarded for his or her constructive efforts.*

The Cost of Living is UP

The Price of Electricity Is DOWN

Today the average American family gets about twice as much electricity for its money as it did 15 years ago!

Production is up—prices down—there is no rationing and no shortages of electric power.

We Honor the Patronage of Youth *

YES . . . the Owyhee Hotel is honored by the fact that through all the years it has remained the favorite dining and stopping place of discriminating young Idahoans. We accept this patronage as pleasing proof that though the Owyhee is deeply steeped in tradition, its many services and accommodations continue to be modern, cheerful and progressive.
