## A FULL MEASURE

To endure, great works of progress must be built with unerring care. Each piece of steel and each yard of concrete must be placed with flawless judgment by men of highly specialized skills.

If America is to continue advancing toward new horizons of prosperity, it too must be built with skillful care.

We of Morrison-Knudsen Company, Inc., believe that the 1956 graduates of Boise Junior College will contribute a full measure of their abilities to the continued growth of our nation.
