# Boise State Performing Dance

## Time Is . . .

Saturday, December 9  
Special Events Center

The choreographers and dancers in this performance are BSU students from the Stage Movement and Repertory Dance class and the Advanced Modern Dance class. Some of the dancers have had no dance training; others have had training in a variety of dance styles. None are professional dancers.

#### THE DANCE

Sweat, running down my back...standing in pools  
at my temples.  
Work...the ceaseless movement.  
The pulling of one muscle against another.  
The grinding of bone upon bone.  
Heat, building...  
My mind floating in detachment.  
The exhilaration of dominance over the structure  
of your own body.  
Feeling each tiny movement as an awakening  
of the senses.
