The University ARBITER

State Board Plans Meeting

Boise—The State Board of Education will meet Jan. 17-18 at Boise State University following four days of Fiscal Year 1981 budget proposal presentations to Education will meet Jan. 17-18 at Boise State University following four days of Fiscal Year 1981 budget proposal presentations to

Following that session, the Board will return to BSU at 10:30 a.m. to meet with the State Department of Education, the Division of Vocational Education and Vocational Rehabilitation, and the Office of the State Board of Education.

Beginning Monday, January 14, agencies, institutions and departments under Board review will present Fiscal Year 1981 appropriations requests to the Legislature's Joint Finance and Appropriations Committee. Those sessions are scheduled during the mornings Monday through Thursday, and during the afternoons Monday through Wednesday.

During the week, the Board will:—

—hold a public hearing at 1 p.m. January 17 to consider a University of Idaho proposal to increase its late registration fee to $50 from $15.
—receive a report from Larry Selland, administrator of the Division of Vocational Education, concerning the latest federal compliance review.
—hold a dinner session at 6 p.m. Tuesday, January 15, at the BSU Student Union Building where Superintendent of Public Instruction Jerry Earsla will outline for other Board members various aspects of the FY81 public school support appropriations request.
—consider a revision to the Idaho State University Student Code which outlines actions which constitute "hazing," which has been prohibited on the ISU campus.
—and decide which of a series of proposals it will approve to make comparable the institutional information contained in the Board's annual cost study.

PIRG Plans Petition Drive

BSU—A student group that can research public issues in Idaho will be established on the Boise State campus if a fee is authorized by the Board. Idaho PIRG will be directly accountable to the students who support it. Funds will be allocated, staff hired and research priorities set by a student board of directors elected by the fee-paying students.

Interest on campus seems high, student organizers hope it can be expanded to other campuses in Idaho.

PIRGs in other states have lobbied for legislation, published consumer guides, organized media information campaigns and published guides to government. Before the PIRG can be established, organizers must demonstrate widespread student support of the PIRG and a student fee to fund it by collecting signatures from over half of BSU's full-time students on a petition.

The petition will read:

Boise—Sonia Johnson was the key speaker at an ERA benefit rally held January 12 at South Junior High. Johnson, recently ex-commemiated from the Mormon church because of her support of the ERA, spoke to a crowd of approximately 600 Saturday morning.

Johnson said, "The opposition doesn't understand the women's movement. It's trying hard not to." Meanwhile, outside in token protest of the rally, two Mormon women carried signs stating "ERA today, God becomes a woman tomorrow." Sonia Johnson does not represent Mormon women, but Satan," and "Go home Sonia, your family needs you.

Johnson outlined four misconceptions commonly held and promoted by the anti-ERA movement.

ERa Rally Held

Sonia Johnson, recently excommunicated from the Mormon church because of her support of the ERA, speaks to a crowd of approximately 600 Saturday morning.
ABSSU ANNOUNCEMENTS

All full-time students interested in running for the ASBSU office of President, Vice-President, Treasurer or Senator can pick-up applications and petition in the Student Activities Office - 2nd floor of the Student Union Building. All petitions and applications must be returned to the above office no later than 4:00 p.m. on Friday, February 2.

Minimum Qualifications Include:
1. 2.25 cumulative G.P.A.
2. Graduate-full time student of the school he/she is representing.
3. President-Vice-President and Senator.
4. Registered students at BSU for Fall of 1979.
5. Treasurer-Business Major with a 2.0 or better semester of work completed by May, 1980.

All elected offices must be full-time students during tenure of office.

ELECTION DATES will be:
- Tuesday, February 5: 7:30 p.m. Censor The Progressive.
- Tuesday, February 12: 7:30 p.m. Sigma Phi Epsilon Ray Anchusregui.
- Tuesday, February 19: 7:30 p.m. Alaska Omicron Pi LeAnn Cromwell.
- Tuesday, February 26: 7:30 p.m. Gamma Student Lawrence Keeth Union-Clearwater room Advisor.

Tuesday, February 26: 10:15 p.m. R בינוט Student-allow Jones Union-Clearwater room Advisor.

Tuesday, February 26: 7:30 p.m. Detriki Kathy Plamansky.

Tuesday, January 16, 10:15 p.m. Montgomery Hall-Charlote Herf, pres.

Monday, January 21: 7:30 p.m. Delta Delta Delta Dee Anne Reiman.

Monday, January 21: 7:30 p.m. Alpha Omicron Pi LeAnn Cromwell.

Monday, January 21: 7:30 p.m. Gamma Phi Beta Mary Beth Van DerPas.

Tuesday, January 22: 7:30 p.m. Rabin Student Lawrence Keeth Union-Clearwater room Advisor.

Tuesday, January 22: 7:30 p.m. Detriki Kathy Plamansky.

Wednesday, February 16, will examine Chinese and Japanese cultures through their language, demonstra- tions and panel discussions. The workshop was made possible through a grant from the Association for the Humanities in Idaho. It will be free to students and the general public. One credit for the workshop will also be available for pre-service and in-service teachers. For reservations and further information, call the International Student Affairs, 385-1757.
Companies Want Geophysicists

BSU—A shortage of energy is bringing a surplus of job offers for several geophysics and geology students at Boise State University.

According to department chairman, Dr. James Applegate, the job market is in "spiral mode," and major corporations are expanding their exploration activities for new energy.

"We’re just starting to hear from employers. Calls are coming in almost daily from the major mining and oil companies."

ERA Rally

Johnson, "the homemaker is dependant on the good will of some man," and her work in the home is not valued monetarily.

Johnson said a woman is forced into the 'housewife role. She then gave the example that if all men were made to be farmers simply because they were men, they wouldn’t stand for it."

"There is as much difference between two women as there is between two men. We aren’t chained to the home."

"I think the ERA will definetly help the status of all women’s jobs."

Following Mrs. Johnson, she said that Idaho was a pioneer in giving women the vote and in ratifying the ERA. Because of the state’s wish to rescind the decision, Dobler said, “I won’t dwell on our later regreession.”

She stated that women are relegated to lower occupational positions than men, regardless of personal performance.

Because of this, she claimed, women earn 55% of what men earn. For example, in 1975, the median annual income for women was $2000 compared to $3000 received by men, she said.

Dobler proposed that instead of allowing just a few women into top jobs, we should raise the status of all women’s jobs.

Other speakers included Idaho State Senator Edith Miller-Klein, Ruth Pauley, former president of the Idaho Women’s Commission; Susan Mauck and Deborah Carnahan, both Boise attorneys; Dorothy Sale, Northwest Regional representative for the National Organization of Women (NOW) in New York; and Betsy Thomas Brooks, Idaho NOW coordinator.

The rally was sponsored by the Boise chapters of NOW and the American Association of University Women (AAUW).
Parents Education
Sessions to Begin

BSU—What is a “common sense” approach to child rearing? How can a parent raise children to be responsible persons? To explore answers to these questions parent study groups beginning the week of Jan. 28 will be available through the Boise State University Parent Education Center. Registration for the eight to ten week classes will be Jan. 21-22 from 11 a.m. to 7 p.m. at the Boise State Schools Administration Building, 1207 Fort Street. The classes will be held in several areas of Boise in order to make it more convenient for parents.

The groups are for parents and based on current popular texts in parent education including "Children: The Challenge" by Chalesr and Solz; "Systematic Training for Effective Parenting (STEP)" by Dishion and McKay; "Parents, Youth and Drugs" by Stee and Vasham; "The Practical Parent" by Corsini, and "Teenagers: The Continuing Challenge" by Solz.

Cost for attending the groups is $10 per family or $15 for family groups plus purchase of the textbooks which will be available at the first group meeting for $4 to $10.

The Children: The Challenge group will meet Mondays at 7 p.m. at 1276 Shenandoah Drive and at Collister School at 7 p.m.; Wednesdays at the Teacher Resource Center, 602 Curling Drive, at 7:30 p.m., and at Jefferson School at 7 p.m.; Thursdays at Valley View at 7 p.m., and Fridays at Merrie School at 7:30 p.m.

The Parents, Youth and Drugs group will meet Tuesdays at Lowell School at 7 p.m.

Persons wanting to join the Practical Parent group can do so Thursdays at Franklin School at 9:30 a.m. and again at 7 p.m.

Sponsors of the Parent Education program are the Boise Public Schools Administrators, the Boise Junior League and BSU. Dr. Katherine Vahuur directs the Parent Education Center, working also as a counselor with the Boise Elementary Schools at Campus School.

Parental involvement under a federal grant from Title I of the Higher Education Act of 1965.

For further information about scheduling and additional groups to be formed, contact Vahuur at the Parent Education Center, 385-3270 or 386-2070.

BSU—The job market for Boise State University graduates has improved, but more alumni than ever before left the state to find work last year, according to a survey just released by BSU Office of Career and Financial Services.

Director Richard Rapp said 76 percent of last spring's graduates found work, up five percent from the 1978 class.

Of those who said they were working, 76 percent stayed in Idaho, a "significant drop" from previous years when about 85 percent remained in the state to work.

Rapp isn't sure why so many are leaving Idaho, but suspects that many of them are teachers. "My guess is that teachers are leaving because of the one percent initiative. Other states offer better salaries and more security than Idaho does right now," he explained.

Rapp attributed part of the graduates' job hunting success to a strong regional economy. But more importantly, he said, are the "career oriented" students that attend Boise State.

"Many students here have their feet on the ground... they work part-time, are married, or are veterans. Employees like these kinds of graduates."

Of the other BSU alumni surveyed, five percent entered graduate school, eight percent had other plans such as church missions or home-marking, and 10 percent said they were available for work or wanted to find better jobs.

According to the report, graduates in nursing, management, accounting, business administration, social work, and communication had the easiest time finding jobs.

Seventy-six percent of the elementary education graduates found work, despite a tight market and threats of cutbacks.

Of BSU's academic schools, graduates from arts and sciences had the hardest time finding work. Sixty percent of those registered from that school were placed. Another 18 percent were graduating and 18 percent said they were still available.

The health professions reported 84 percent employed, business placed 60 percent, and the graduate school 76 percent.
Bookstore Extends Business Hours
by Michelle Hartell
Associate Editor

BSU-Extended shopping hours at the BSU Bookstore, which started January 12 and will go until January 26, will help make book buying easier.

Susan Belzukis, an employee of the bookstore says, "early mornings and towards closing hours are the best times to come in if you want to avoid long waiting lines."

The extended hours will run until January 26. The hour schedule will be Monday to Thursday 8 a.m. to 7 p.m., Friday 8 a.m. to 5 p.m. and Saturday 10 a.m. to 3 p.m. January 16 and 17 only, the bookstore will open from 8 a.m. until 8 p.m.

The new regular hours, starting January 28 will be:

- Monday 8 a.m.-7 p.m.
- Tuesday 8 a.m.-5 p.m.
- Wednesday 8 a.m.-7 p.m.
- Thursday 8 a.m.-5 p.m.
- Friday 8 a.m.-5 p.m.
- Saturday 10 a.m.-3 p.m.
- Sunday CLOSED

Manager Bill Barnes said, "The new hours will give an opportunity for students to visit the bookstore on Saturday and in the evenings, making it more available to all students."

Student and full-time employees are abundant during the madness of book buying at the start of the semester to answer all questions. Students are encouraged to seek their help.

One way to offset the effects of inflation in 1980 is to have an additional source of income. The Idaho Air Guard provides an excellent second income source.

* IT ADDS HUNDREDS OF DOLLARS TO YOUR ANNUAL INCOME.
* YOU GAIN ADDITIONAL RETIREMENT BENEFITS AND SECURITY.
* YOU ENJOY YOUR REGULAR CIVILIAN WAY OF LIFE.
* IT OFFERS EDUCATIONAL ASSISTANCE TO STUDENTS.

BSU-A new book designed to help Idaho's elementary teachers plan their history lessons has been released this week by Boise State University professor Patricia K. Ourada. Published by the Boise State University Press, Indian Peoples of Idaho is a loose-leaf collection of essays written by BSU students that describes the history, the culture, and the struggles of Idaho's native Americans. The book opens with a condensed archaeological account of prehistoric man in Idaho and then traces the history of the Coeur d'Alene, Nez Perce, Shoshonis, Paiute, and Bannock Indian tribes. According to the book, early on they were located in different regions of the state and had different customs, dialects, and modes of living. The book contains a wide variety of topics so that teachers may select those they wish to develop, says Ourada.

Some of those topics include short biographies of famous Idaho Indians, such as Chief Joseph and Sacajawea, Indian legends, poetry, and games, as well as Indian recipes for stew, fry bread, and stuffed pumpkins. Of further aid to teachers are chapters on suggested crafts projects and Indian-related historical monuments found in Idaho. Ourada's book also gives the facts surrounding the Indians' warfare, and includes summaries of actual treaties and unsettled claims that prove the Indians never received compensation for their lands. According to Ourada, even today there are many unsettled claims in Idaho.

This is the second edition of a book which originated as a class project in 1973, and was developed with the assistance of students in Ourada's "Indians in the Twentieth Century" history class offered at BSU in 1978. The black and white ink sketches, puzzles, and word games in the book were drawn by BSU art graduate Terry Mezo.

Ourada, who specialized in American Indians at the University of Oklahoma, and received her doctorate there in 1973, taught in the North Dakota and Minnesota secondary schools for 12 years before joining the Boise State College history department in 1980.

She is presently consultant to the Inter-Tribal Policy Board, and has worked with its humanities grant to present work of the National Indian Policy Review Commission to tribes in Idaho. Publication of the Indian Peoples of Idaho was sponsored by the Boise State history department.

The book is now on sale at the BSU bookstore at $6 a copy.

Persons interested in ordering the book by mail should contact Blaine Waddoups, special orders clerk, 1910 University Dr., Boise, Idaho, 83725, (208) 385-1254.

**Editorial**

**Corporate Equality**

And so the corporation called Ford Motor Company is being sued in a "historical" case involving the human animal. Should the plaintiffs win their suit, FomCo will become the first U.S. corporation to be held legally responsible for an act of homicide. Until now, such responsibility has been given only to human beings.

The above lawsuit seems only a natural outgrowth of the cumulative actions taken by corporations over the years. Because the corporations, over the years, have worked hard to make themselves into legitimate citizens of this country with all the rights and privileges and a moneyed, citified society. To rehabilitate means--to restore to good condition as through education and therapy.

Let us look at why people come to prison. Social and economical conditions lead people to crime. I'm not saying people are forced to commit crimes, but the socio-economic situation can make it appear a more attractive course of action to some people. Therefore, we must come to grips with the real conditions of our society.

Corporations use their status as citizen entities to further their interests. The corporation pays taxes, takes deductions, sets up tax shelters, and reports earned income just as John Doe can sue or be sued.

An analysis of current U.S. corporate citizen responsibilities and privileges as compared to U.S. human citizens' responsibilities and privileges shows that there is little difference in the possibilities, though perhaps a large amount of difference in the practices. The most alarming degree of difference is the seriousness and diligence with which the corporations work for their own profit, a degree far above that of most of the human sector of citizenship. The gray area between the corporation of homicide and the natural human being possibly can move over and give place to the corporation of homicide.

**Letters To The Editor**

**Want to Get Involved?**

Open letter to BSU students;

No matter where you are or what your age the making of legislation, carries the prospects of devastation for you and your children. Your legislation may be introduced this term raising the legal age for drinking back to 21; it stands an excellent chance for passage and Idaho would be the nth state to raise the age in recent years.

Polling of the Snake River Aquifer by the BLM continues unabated; anticipated strong public outrage fails to materialize. Students for Higher education slashed; the worth of your degree dropping proportionately to industries search for better-prepared graduates.

In the 1960's many students believed that they had both the right and the ability to attempt change in their environments. That right and responsibility is not to be sold by the government through its Lobby, your government. In the efforts for a Public Interest Research Group, your friends at the Student Action Council, and many other organizations.

The Young Republicans, are all demonstrating knowledge of the VOTE and responsibility through action. Won't you consider joining in the effort?

**Editor, the Arbiter:**

I am presently incarcerated at the federal penitentiary in Atlanta, GA, for conspiracy to sell marijuana, and would like to correspond with some of the women on your campus. I am 26, 6 feet tall, 165 lbs., well kept, straight blonde hair, blue eyes, and smooth complexion. My hobbies are tennis, jogging, snow and water skiing, and painting and entertaining people. I am in the restaurant business and am from Miami, Florida. I am a college graduate with a business major. Will answer all. Thank you for your time and consideration.

Respectfully yours,

Mark Makszovics

They say it hurt Ronald Reagan to stay away from Iowa's TV debate. Maybe. But not as much as showing up would have hurt him. Everyone looked young on that debate stage. Except John Connally. And the youngest looking person was not, surprisingly, the youngest. Congressman Philip Crane seemed to be a kind of teen-age Ronald Reagan, quick and glib with prepared economic and military platitudes, the nice guy making every campaigner in sight, ringing church chimes around cold winter themes. Why? Get the superannuated Reagan when a clone was sitting nearby to tell us these debates are "a fun experience"?

The worst answer given in the debate was Howard Baker's comparision of our partial grain embargo with Russia's interference in Cambodia to prevent release from reaching starving people. What kind of sensitivity can compare the two situations? In our case, we affect (slightly) a brutalized, suffering people. In Russia's case, the people's failure is staggering. Did you record the 11 Republican senators on that platform run down to some of the Ancient Romans and lecture to them. But no one else in the group came up with such an awkward justification for his cowardice. The best answer given in the debate? Almost any of those from John Anderson--that one gives and takes at the same time only with the help of millions, that one would be the great regret most legislators of his vintage ought to feel was for the Tonkin Gulf resolution; that those who call for toughness and forns and criticize the grain embargo or the high tax are "passing strange" type. John Connally got a laugh for feigning that he did not know what Ronald Reagan thinks; Anderson repeated in the debate that Reagan does not have to think--he just recites the lines from his last half-dozen or so campaigns. Anderson did not help himself in electoral terms. He just proved that he was not good for this gaudy campaign. It looked more like Mr. Reagan as showing up would have hurt him. Anyone who helped himself--but he had nowhere to go but up, and there is still far too go.

The one who helped himself least in the debate was probably John Connally, who kept windling up for a pitch that never came. He is a solo performer--he shows off and is not quite reputable trade. I suppose that Crane helped himself best--but he had nowhere to go but up, and there is still far too go.

What's Hip at BSU?

by Denise Minor and Deelee Tracy
Arborist Staff Writers

Welcome to a new decade, Boise State, and get ready to change the way you think about it. "Doing your own thing" just doesn't cut it anymore; this is the 80's and time to play by the rules. Certain things are in and certain things are out. It's that simple.

But play by the rules you must, because they have been set by a line between making an impression and making an ass of yourself. If you aren't sure, then don't be---walking across campus in bell-bottom hipster pants, sagging your jeans over a flower in one hand and a guitar in the other.

What is a list of in and out things at Boise State this year. Perhaps helpfully, or follow, you could be banished to the Towers for the remainder of your college career.

Obviously, the Towers are out. If you are planning on living in one, and have lived in these domes and survived it very in. Driscoll and Morrison are in, and so is living off campus (especially with your parents). "Off-campus dorms" such as farm houses, New Town and the Farmers Arms are out. Houses are in.

The fact is, they are in, and so is coming from a farm or a ranch. But coming from Idaho Falls, Lewiston or Butte are out. McCull, Boise, and Mcbese are in, and so are the dunes (Garden City is out but Old Boise is very in especially the 9th Street Marketplace).

These terms are out: Boise State, the Boise Public Library is out and the Boise State Library is out. The Idaho Historical Museum and Boise Art Gallery are in. The zoo is in, and so is Julia Davis Park. Art Gallery is in, and so is the Boise Art Gallery.

The following terms are in: photographs, tea (not herbal), cassette, unions off-campus meal plans, pianos, old jokes, middle initials,.gifs, reading, medieval literature, gold, credit cards, plays, movies, bison, Idaho City, PSO, dancing, roller skates.

These are in: cigarettes, rap sessions are out; the term "rap session" was out a long time ago. Dorm activities like floor parties are out. The less the people on your floor know about you, the more you are in. In fact, staying in your room is in, as are fake compassion and compliments. Chatrooms, irony, and sarcasm are in. Throwing things out windows is out.

Just having coffee for breakfast is in, cereals and pop-tarts are out. Plain yogurt is "in." Flavored is out. MRS. Miller is in. Tennis is in; quagmire is out.

Digital clocks are out; grand-father clocks are in. In fact, grand-pathers and other antiques are in. Racial and chrome are out. Ethnically and so are minorities. Sexuality is out and so is agrofondism (a gonna declare, one way or the other).

The Shah is out and Khomeni is in, for the time being anyway. Margaret Thatcher is in. Feminism is out, but women are in. Montana and Washington are in. Utah, Colorado and California are out. Canada is very in and so is the east coast. The mid-west is out. Old high school friends are out, yet out of the woodwork are in. Talk to large inanimate objects.

To the joy of some and to the dismay of others, the Pavillon is alive. The beat came in approx.

However, wearing your jogging suit to class is in. Revolutionary movements are in, and so is political activism. Dean Rouchas is in until he dies--he's got tenure. Apathy is out (got that Boise State flavor?). Beer bands and candies are out. Cats are in and so is simple.

Farrah Fawcett is out and so is John Travolta. Jane Fonda is in. Raquel Welch is out, but is on the way in again. Humphrey Bogart and Clark Gable will always be in, as will Katherine Hepburn. Elvis Presley commercialism is out. Robert Redford and Clint Eastwood are very in. So is Bo Derek. Steve Martin isn't.

Rap sessions are out, and the term "rap session" was out a long time ago. Dorm activities like floor parties are out. The less the people on your floor know about you, the more you are in. In fact, staying in your room is in, as are fake compassion and compliments. Chatrooms, irony, and sarcasm are in. Throwing things out windows is out.

Just having coffee for breakfast is in, cereals and pop-tarts are out. Plain yogurt is "in." Flavored is out. MRS. Miller is in. Tennis is in; quagmire is out.

Digital clocks are out; grand-father clocks are in. In fact, grand-pathers and other antiques are in. Racial and chrome are out. Ethnically and so are minorities. Sexuality is out and so is agrofondism (a gonna declare, one way or the other).

The Shah is out and Khomeni is in, for the time being anyway. Margaret Thatcher is in. Feminism is out, but women are in. Montana and Washington are in. Utah, Colorado and California are out. Canada is very in and so is the east coast. The mid-west is out. Old high school friends are out, yet out of the woodwork are in. Talk to large inanimate objects.

Speed, pot, PCB, and qualudines are out. In fact, all drugs except alcohol (in moderation) are out. Coca, Schlitz malt, and Bush are in. Hemm, Miller and Molson are out. All light beers with the exception of Oly Gold are in. Fruity drinks like Pinocoladus and daiquiris are very out.

Drug addicted writers are in (Poe, Coleridge, Hunter Thompson) and homosexual writers are out (Capote, Wilde, Elia Kazan), although the Gay Movement is in. Getting a job and making money is in; talking about it is out. The College Fair-Out is in and out. And so is the War. Star Wars is out; Star Trek is in. Spock is in. The next generation is out; Japanese is in.

Diva's is out, and so is living together. Fairy tale love is out. Celebrity is in. Existentialism is out, and phenomenology is in. Brown, Kennedy, and Contolly are out. In fact, all the presidential candidates are out. Talking to your plants is out, but talking to large heavy objects is in.

The New York Times is in, in spite of itself, and so is the Boston Globe. The Los Angeles Times is out. The Lewistown Tribune is in, and the Statesman is out. The Arborist is neither in nor out, it's just there. Waterbeds are out, but fisher beds are in.

These are in: photographs, tea (not herbal), cassette, unions off-campus meal plans, pianos, old jokes, middle initials, gif's, reading, medieval literature, gold, credit cards, plays, movies, bison, Idaho City, PSO, dancing, roller skates.

These are out: cigarettes, rap sessions are out; the term "rap session" was out a long time ago. Dorm activities like floor parties are out. The less the people on your floor know about you, the more you are in. In fact, staying in your room is in, as are fake compassion and compliments. Chatrooms, irony, and sarcasm are in. Throwing things out windows is out.

Just having coffee for breakfast is in, cereals and pop-tarts are out. Plain yogurt is "in." Flavored is out. MRS. Miller is in. Tennis is in; quagmire is out.

Digital clocks are out; grand-father clocks are in. In fact, grand-pathers and other antiques are in. Racial and chrome are out. Ethnically and so are minorities. Sexuality is out and so is agrofondism (a gonna declare, one way or the other).

The Shah is out and Khomeni is in, for the time being anyway. Margaret Thatcher is in. Feminism is out, but women are in. Montana and Washington are in. Utah, Colorado and California are out. Canada is very in and so is the east coast. The mid-west is out. Old high school friends are out, yet out of the woodwork are in. Talk to large inanimate objects.
Sleeping Bag Selection Debated
By Dave Steinman
Reprinted with permission from the Oregon Daily Emerald

Buying a quality sleeping bag is not difficult, but there are a few things to know before making a purchase.

Insulative materials can be either synthetic or natural. Down is natural and gives the best loft—or insulative thickness—per pound. But water soaked down at best retains only 17 percent of its original loft, something to keep in mind for rainy weather. Goose down is the best quality, raising a bag’s price to 460.

Down is used in less expensive bags, having about 40 percent less loft, the compromise is called prime goose, found in what most manufacturers consider their very good bags. In dollars this translates to $200 to $300.

Unfortunately, there have been scandals in the outdoors outfitting industry where cheap grades of down have been substituted for better grades. A buyer’s best guide is to stick with a respected industry name such as North Face, Sierra Designs, Trailways, Helios or Sundown.

In Eugene, Ore., synthetic-filled bags outsell down by 50 to 1. Synthetics, when wet, retain at minimum 85 percent of original loft. Also, synthetics can provide equivalent heat at same weights as a down bag even though twice as much material is needed.

“The is because synthetic fill doesn’t need baffling like down does,” says Bob Taube of Sundown Sleeping Bag Co., in Eugene. “But a down bag will last 10 times as long. Also, synthetics compress as easily as down and have about twice the volume.”

The best synthetic material on the market is Polarguard, though Dacron 2 can be found in cheaper bags, says Taube. Polarguard-filled bags can run anywhere from $80 to $150, depending on temperature rating.

Rip-stop nylon and taffeta are commonly used for a bag’s outer shell. Taffeta is found on less expensive equipment. Rip-stop gives the highest tear strength per weight and can be distinguished by its little checkered patterns formed by using heavier threads. Only small manufacturers of sleeping bags, such as Sundown, will take the time to “hot out” their rip-stop nylon. Hot cutting fuses fiber edges together to prevent fraying.

Something an expensive down bag will have a Gore-tex outer shell. Tylon is a new material used for an inner lining. It’s soft as cotton for a more comfortable feeling on the inside.

The larger space of a rectangular (also known as barrel) bag means less warmth for the same amount of fill. They also don’t have hoods, which are important since 30 percent of the body’s heat is lost through the head. Mummy bags are the preferred choice for anyone planning to be outdoors in all kinds of weather.

A good mummy bag will have a zipper that goes within a few inches of the bag’s foot, as well as double zipper tubes or a wind flap. People intending to share two bags zipped together should buy a right- and left-handed bag. A right-handed person should buy a left-handed bag as it is easier to zip across the body than down the same side.

Term Paper

Millis Doing Well

by Jim Gullo
Collegeate Consumer Reporting
Service Staff Writer

"Academic Research Papers: Improve Your Grades," says the ad in college newspapers and such national magazines as Rolling Stone. "Send $1 for catalogue of topics." It is research that is for sale, but it is research that can be handed in to a professor as a term paper with little more than a re-typing. Nobody knows how many of these papers are bought by college students, but it is easy to see that the companies in the term paper business are making out well.

Since their beginnings in the early 1970s, such companies as Research Assistance of Los Angeles, and Collegiate Research Systems in New York have expanded their services with national advertising and catalogue of pre-written papers which number in the thousands. If just one-half of one percent of college students bought a 10-page paper annually, the companies would take in over $2 million.

While it's difficult to find out how many papers are being sold, or to whom, the quality of those papers can be investigated.

A situation presented itself where a reporter, who is also a student at the University of Arizona, had been assigned a 10-page term paper in his modern dramatic literature course. Plans were quickly drawn up to buy a paper to turn in to the professor without his knowing it. The student's own, self-prepared term paper would be left with a department head and turned in after the purchased paper was graded.

The first thing to do was get a catalogue. There was a nagging question of whether or not the companies actually were selling honest-to-goodness term papers. After all, when interviewed by reporters, most deny that the purpose of their business is to fulfill students' needs.

"We hate that term (term paper) mill being applied to us," said Michael Spencer of Research Assistance. "Most of our service is sold to businesses. We don't even know how many students use the service. We're selling information; the morality lies with the student."

But the myth was quickly dispelled by one phone call by the student/reporter.

"Hello. I need a term paper...

Bags

CONTINUED FROM PAGE 10

Two-way separating zippers can be distinguished by being able to be zipped from the top or bottom. The best way to tell a bag's quality is to check the way zippers are sewn into a seam while the least expensive bags will have zippers that show both edges of the fabric away from the teeth. As for temperature ratings, manufacturers always overstate and synthetics like Polarguard lose a little loft after being used a few times.

To get a good bag, go to a specialty shop whose business livelihood is dependent upon selling quality outdoor gear.

But seeking out experienced outdoors people and asking their opinions of different manufacturers' bags, as well as the different options available is usually better than taking advice from sales people, who, if intentioned they may be, tend to favor the equipment their store handles. Shopping around is a good idea and waiting for off-season sales can save a person about 20 percent off the price they might be paying during the middle of summer. Generally, the best time to buy a bag is around April or November.

Once a bag is bought, be aware of how to clean it. Down bags should be cleaned professionally by a dry cleaner who will not use Perk cleaning fluid. Synthetic bags can be machine-washed in cold water; too much heat will melt the bag. For drying, either hang a bag-outside or use air-dry loft. Use a front-load machine when washing so the bag won't get wrapped around the agitator of a top-loader which could destroy it.

Coupons are like cash in the snack bar. Each coupon has a cash equivalent of $0.97 on any of the many items offered in the snack bar.

GUARANTEED UNINFLATION
Our 321 Coupon Program
Saves You Money
The more you eat, the more you save. That is the truth. If you are an hungry eater, the 321 coupon program is for you. And every dinner you dine with us, the high cost of food glides right by, and you glide right out, appetite satisfied at no more cost to you!

Sound like a good deal? We'll be happy to answer any questions you may have or provide you with a sample book to take home with you.

If you would like to order, call 336-9111. Or come in to the Food Service Office in the student union building and be sure to see your josten's representative.

Wine Buying Made Easy

By Charles D. Waters
Reprinted with permission from the University of Arizona Daily Wildcat

More than 3 million college students visit retail shops to buy the wineries' specialties. Along with the normal amount of comparison shopping patience, the novice vinoophile should also invest in a wine buyer's guide and scout out discount liquor outlets.

A good, inexpensive buying guide will give you a rating of different vintages and wine specialties, a list of recommended wines broken down by price range, instructions on how to read a wine label and a wealth of historical and descriptive data on both domestic and foreign regions. The ratings are particularly useful for avoiding high-priced mediocre wines and for distinguishing good years from bad.

Where to Buy Wine. Wine retailers offer good selections of wine. In addition, some grocery stores and a few chain drug stores may offer good selections of foreign and domestic wines at low prices. Small independent liquor stores are usually the most expensive places to buy wine, although they offer the most complete selection. Campus dining halls and snack bars lack variety.

The best places to purchase good wines, in terms of selection and price, are chain-discount liquor stores. These establishments have a large inventory and lower mark-up over wholesale prices. Keep an eye open for sales and special purchases. There are sometimes some remarkably good buys on high-quality wines.

How to Buy Wine. Don't be afraid or too impatient to comparison shop. Liquor store workers are accustomed to giving you lots of information through the wine selection. Likewise, don't be afraid to ask a salesperson for help. Many of them are vinoophiles themselves and have sampled some of the wines you are interested in. Most will tell you if a wine is a good buy or not, or give you a realistic assessment of its quality.

Read the wine label carefully. A wine label contains enough information to make a fairly good idea of the quality of the bottle's.

Companies, claiming that by

"research." The paper had been photocopied and it required re-typing before it could be turned in. Footnotes were included, although the style wasn't quite correct. The paper was re-typed exactly as it came in, and was turned in to the unsuspecting professor two days later.

The paper was given an A-minus. "I wavered between a B and an A-minus," said the professor after he had found out about its origin. "So I gave it the benefit of the doubt to the student. There really were some good points made here."

"It should be noted that the student/reporter was doing a work in the class and had a fairly close student/professor relationship. The class had about 18 students in all."

The reporter, being of sound journalistic ethics ("I sez," as some might put it) explained the situation to the professor and then turned in his real paper. It received a B. There is no moral to this story.

Wine

CONTINUED FROM PAGE 12 interests. French and German wines in particular are governed by stringent standards, and their labels often must contain precise information about the quality of the wine, grape type, origin of grapes used, and bottling. Names are particularly important, and the student should look for wineries who have a reputation for making quality wine.

Often, a good sign of quality is estate-bottling, meaning the wine was bottled by the grower. Estate-bottled wines almost always are donated by the terms "Estate-Bottled" (California), "Erzeuger-Abfüllung" (Germany), or "Mise en bouteilles au chateau" (France)."
Women Boost Record

(BSU)—The BSU women's basketball team, playing at home, defeated the Idaho State Bengals for the second time this season, 78-63. The Broncos had taken BSU in their season opener in Pocatello, 70-48.

The Broncos outscored the Bengals 38-25 in the first half, improved their record to 5-1, and finished the season 11-0 in conference play.

The Broncos were led by guard Connie Thomgren, who scored 25 points and grabbed 10 rebounds, including two crucial free throws in overtime. Davis Williams also scored 15 points and 13 rebounds, including two crucial free throws in overtime.

Connie Thomgren. The pressure paid off. ISU the first time the Broncos won a nine point half time deficit to pull within four points of BSU with ten minutes remaining in the game.

"I was pleased with the way our players handled themselves when they had a nine point deficit to pull within four points of BSU with ten minutes remaining in the game. They just worked harder and played smarter. It was the entire game, something they haven't done before," said Thomgren.

"The kind of game where there was considerable pressure to win. It was an important boost to our confidence, which is exactly what we needed going into the next competition," added Thomgren.

The Broncos, who had not played a home game since the first weekend of the season, are now 4-5 overall and 1-0 in the Mountain West Conference.

BSU Wrestlers Do Well on Road

(BSU)—The Boise State wrestling team began the 1980 season in fine fashion and hopes to improve, as two more road meets are scheduled before returning home to face Oregon State University, Saturday, Jan. 19.

The Broncos defeated Cal State, Sacramento in a dual meet this past Friday, 22-16. On Saturday, BSU placed second in the 11 team meet at the Arrowhead Open, hosted by Cal State, Fullerton.

The Broncos will make their first home appearance of the 1900's in Bronco Gym, Saturday, Jan. 19 against Oregon State of the Pac-10. The meet gets underway at 5:30 p.m., and precedes the Boise State-Montana State basketball game at 8 p.m.

BSU Takes Two

by Bud Humphrey

Experience on the road, and a slight shift of personnel, paid off for the BSU men's basketball team, as they rebounded from seven straight losses to take two in a row, including that all-import ant first road win.

Now, of the eleven games left, the Broncos will have very much, as Anderson and Wlkerson.

Anderson and Wlkerson.

Richardson was one of the heroes of the season, "State, handling the Vikings 7-.

The Broncos controlled the boards, out rebounding their opponents 34-26, but to beat us, the guys in the upper weights, but..."

Connor noted, "but to beat us, we have the tall players to compete with BSU, including 6-10 center John Head.

"We've ays had problems with shorter, quicker teams," Connor noted, "but to beat us, they have to out-rebound us." The Montana State Bobcats have so far out-rebounded their opponents by an average of better than five a game, and most of that is due to Williams, who averages 15.8 points per game, out rebounding the opponents.

The Broncos were down 16-3 to Col State, Sacramento and needed a 19 straight point rally to pull within four points of the victory. With the score tied at 16-16, heavyweight Dave Amsden pinned his Williams in the second period to insure the win.

"We really had a great effort by the guys in the upper weights, but Dave Amsden was the hero for us. We really came through," Wrestling Coach Mike Young said.

The Broncos scored 17 points in the freestyle competition at the Arrowhead Open. Southern Oregon won the 11 team meet with 21 points. San Jose State finished behind the Broncos with 14 points.

BSU's only individual champion was Scott Sawyer at 122 pounds, who has yet to lose a match this season.

Tony Whitlock was a second place finisher at 137, as well as BSU. Bremere at 177 pounds and Dave Amsden at heavyweight were also second place finishers.

BSU faces its last match of the season this weekend in Logan, Utah, to compete against three nationally ranked teams. The first two matches are against BYU and WSU, and the meet will be held at the Brigham Young University student center.

The pressure paid off. ISU dropped to 2-5.

Connie Thomgren. The pressure paid off. ISU dropped to 2-5.
**Intramurals Recruiting**

(UA)-Regional TV coverage you'll get, but intramural sports still beats vegetating in the stands and watching some flash with a fat four-year scholarship dribble through a crowd and miss an easy-layup.

If you can get a basketball or co-ed volleyball team together and hop over to the Intramurals Office, Gym 203, with a roster by January 25, you too can get in the thick of things. Men's roundball teams can gun for the Hillside Stranglers, last semester's champs, by a neck. Volleyballers can try their hand at unseating the LeGe Institute, who handily turned down KBSU to claim the co-ed net title. **Men's basRetball will**, start out fresh this semester. Hurry up and get into intramural sports before the deadline, and miss, (or make) your own easy layups!

**Gymnastics**

"I did an excellent job considering we were without our top all-arounders, Lori Talbot and Cecily Corder," said Head. Both Talbot and Corder did not compete due to injuries. "I was especially pleased with the improvement of freshman Kelly Parker," added Head. Parker was the top BSU all-arounder with a score of 30.85. She also placed second on the beam for the meet with an 8.25. Shalagh Aster, Oak Harbor, WA, also earned a second place on the beam with an 8.4. "Competing against this kind of stiff competition will only make us tougher in our own division," commented Head.

BSU Preparates for Indoor Meet

(Boise)–The Boise Basin Amateur Freestyle Team is forming to provide youth of the Boise valley with training and supervision in the art of freestyle skiing as defined and recognized by the USSA (United States Ski Association) and the FIS (Federation Internationale de Ski).

Because of the embryonic state of amateur freestyle competition in the Pacific Northwest Division of the USSA, spots for the National Amateur Freestyle Championships will be held in Sugarbowl. Mailing this coming March, will be determined by the number of participants in the Boise Basin program.

Training begins January 19 and will consist of Saturday and Sunday coaching on maintained jumps and four schools located at Boise Basin.

The meet gives us an opportunity to see who we can count on in various events," Jacoby said.

"It's the first time we middle distance and distance people have competed since cross country season, and we will be doing some double up in these running events," he added.

Jacoby said he will take about 24 people to the meet, which begins at 1:30 p.m. in the Mountain West.

The Broncos will be spending three other weekends in Pocatello, competing in the MIdomde this winter. In addition to this weekend's meet, BSU will be competing in the Mountain State Invitational on Feb. 9 in Pocatello, the Mark Harris Invitational in Logan UT, at Utah State University.

snuck, lathered to a thigh the

breath of Missouri, into the

theater. Each Glut Butt accom-

plishes their sound effects

naturally, in Dolby. And de-

strains the mode filmmakers

have spent millions creating for

you to spend $3 plus to partake of.

SOLUTION FOR GENUS GLUT

BUTT: Down lem out: pour your
coke on their head.

III. Genus Formicide-in-Their-

Plants: These movie migrants

obstruct not your hearing the

film as much as your seeing it.

They bob up and down for
deeper views, darker spots

wherein to cop a feel, or more

because they think they should

get up every 30 minutes to

change the channels.

SOLUTION FOR FORMICIDAE:
Preparation H.

At this point, of course, I'm

supposed to say, "My goodness,
you goose, I don't really want

you to use my solutions. I was

just trying to be funny. You

should politely whisper "Shh!"

the Movie P-O-Wavc., or go get

the ushers and ask them to play

their movie P-O-Wavc., or go get

the ushers and ask them to play

the heavies. But I'm not going to.

That whisper will merely distract

others and Boise ushers don't

know karate.

The only real solution is to call

me, I'm a 23 year-old 6'6" angry

ex-Beret toucher who'll be

happy to stifle any ex-Beret

jive.

Anthony Burt
Wednesday Jan. 16
Late Registration, evening classes only.
Ad. Dept.
For additional information call the Ad. Dept.
Regular library hours resume.
Admission and employment for non-
traditional students workshops.

Students struggle again this semester through registration, held in
the gym on Tuesday.

Readings to be Held
Post Donald Hall will give two
free public readings from his
works Jan. 23 at the Boise Gallery of Art and Jan. 24 in the Boise
State University Student Union
Lockout Room.
Both readings in the Charles
David Wright Poetry Series will be at 6 p.m.
Hall, a former professor of
English at the University of
Michigan, is now a New
Hampshire free-lance writer. He
has given over a thousand poetry
readings of which he says, "I love
to write all day for a week, fly
away and talk my head off for
twenty-four hours, then fly back
and shut up. It is wonderful to
blow off steam; it is wonderful to
keep silence."

His recently published volumes
include a group of prose reminiscences
"Remembering Ponds," a collection of poems "Picking the
Leaves," and a critical collection
"Greatfoot Milltongue Twibird.

Concert to be Held
Western singer-entertainer
Utah Phillips will perform a folk
music concert Jan. 23 at 8 p.m.
in the Boise State University Special Events Center.
Phillips, called "an entertainer in
every sense of the word" by The
Montreal Gazette will join his
talents with guitar-banjó vocalists
John Harrison and Michael
Wendling and the Meros Creek
String Band in the evening of folk
music and commentary.

Tickets will be on sale at the
door, at the BSU Student Union
information desk and at the Boise
Food Co-op, Hyde Park, for $4
general admission and $3 for
students and senior citizens.

Declassified
A GRAND OLD WHALE
Golly Gumdrops. We've been in
college society. Whoo! What a
good we all have a party to
either celebrate or mourn. What's
wrong? What's the matter? What's
wrong? What's the matter? We
promised again. Why?

We promised each other that
next week; that next week we will
read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
that next week; that next week we
will read. We promised each other
